

PAMINDU RASHMITHA

AI Engineering Undergraduate · Machine Learning · Agentic AI Developer

Awissawella, Sri Lanka | pamidurashmitha@gmail.com | 075 157 4943 | [Git-Hub](#) | [LinkedIn](#) | pamindu.dev

Driven AI Engineering undergraduate at SLIIT with hands on expertise in machine learning, Agentic AI development, and intelligent system design. Experienced building production grade AI agents, predictive models, and microservices architectures. Eager to contribute strong analytical skills and deep learning knowledge to a fast-paced AI engineering team.

PROFESSIONAL EXPERIENCE

Dispatch Officer

John Keells Logistics, Sri Lanka

Apr 2024 - Jul 2024

- Coordinated daily dispatch operations ensuring accurate, on-time delivery across supply chain nodes.
- Leveraged SAP ERP for real-time inventory management, order processing, and logistics reporting.
- Collaborated with cross-functional teams to resolve operational issues and maintain accurate documentation.

TECHNICAL PROJECTS

TripWeaver - AI Travel Planning Platform

Next.js, FastAPI, LangGraph, PostgreSQL

- TripWeaver is an intelligent, AI powered travel planning assistant designed to streamline your trip organization. By leveraging advanced language models and specialized data agents, TripWeaver provides seamless travel planning, including flight searches, hotel recommendations, activity planning, and real-time weather updates.

Heritage Slabs - Enterprise Platform (GenAI)

Spring Boot · FastAPI · React

- Heritage Slabs is an all-in-one ERP (Enterprise Resource Planning) platform designed specifically for the granite and construction industry. The platform streamlines business operations ranging from inventory and supplier management to automated logistics and customer support. A standout feature is the "BuildVision" AI visualizer, which allows clients to preview natural stone products in their own spaces with photorealistic precision.

Appliance Energy Prediction - Multivariate Neural Network

PyTorch · Colab

- Architected an end-to-end machine learning pipeline designed to predict appliance energy consumption using multivariate time-series data.

KEY ACHIEVEMENTS

- Dean's List - Year 1 Sem 2 (GPA 3.77) and Year 2 Sem 1 (GPA 3.85) at SLIIT.
- Certified AI/ML Engineer (Stage 1 & 2) by SLIIT; Intro to Machine Learning by Kaggle; Python for Beginners by University of Moratuwa.; AI Engineer (Outstanding) By STEM Link

TECHNICAL SKILLS

Frontend	React · Next.js · JavaScript · TypeScript · HTML · CSS
Backend	Node.js · Express.js · FastAPI · Spring Boot · ASP.NET Core
Languages	Python · Java · JavaScript · TypeScript · C#
AI / ML	PyTorch · TensorFlow · Scikit-learn · LangChain · LangGraph · Pandas · NumPy · Matplotlib · Seaborn · MCP · AI-SDK
Databases	MySQL · PostgreSQL · MongoDB · PineCone · ChromaDB · Redis
Tools	Git · Postman · Docker · SAP · Figma

EDUCATION

BSc (Hons) in Information Technology - AI Specialization

2024 - Present

Sri Lanka Institute of Information Technology (SLIIT) · GPA 3.85 · Dean's List

- Focus: Software Engineering, Automation, Deep Learning, Data Science, Neural Networks, and Intelligent Systems.

Advanced Level - Physical Science Stream

2021 - 2023

Mahinda Rajapakse College, Homagama

- Subjects: Combined Mathematics, Physics, and Information Technology.

REFEREES

- Davindu Padmasiri (CIMA Qualified, MBA (UK)) | Financial Analyst at Planlogic | davinduaastro@gmail.com
- Isuru Dhanisha | Lead Software Engineer at Prima | i.dhanisha@prima.com.lk
